

# Acknowledgements

I would like to express my sincere appreciation to my advisor, Professor Nen-Fu Huang, for his patient guidance and constant support. His careful and critical comments significantly improve the content and presentation of this thesis. I am obliged to my committee members, Professor Wei-Tsong Lee and Professor Wei-Kuan Shih, for their precious comments, suggestions, and encouragements. Thanks also to the members in the High-speed Network Laboratory for all the help and support. Finally, thanks to my family, for always supporting me with the best encouragement.
