

Acknowledgements

It is with great pleasure that I take this opportunity to acknowledge the following people for their help and guidance in the compiling of this thesis. Firstly, I would like to thank Professor C. S. Tzeng, from National Tsing Hua University, for his invaluable guidance and support throughout this study, particularly with comments and suggestions for the final version of the thesis as well as practical advice on photographic techniques and taxonomy.

Dr. Min-Yun Liu, who's initial work and discovery of a cryptic species led to the following study is also recognized here as a major source of information, support and guidance.

Warm recognition also extends to Mr. Ruong-Tsung Chen of ESRI, Agricultural Council, for the loan of certain reference materials.

I would also like to thank Lucy Teng for her advice and tutoring, particularly with the DNA sequence software and with regards to the construction of the NJ trees as well as assistance with PCR which Hitachi Wang should also be recognized for.

I am indebted to Ray Chang for his photographic skills which helped produce the images of the two species contained within this study and for his general advice and assistance.

Thanks also to the following people for their comments, support and patience – My mother and father, Rosanna Chiappinelli, Wilson Chen, Kim Huang , Luisa Chen, Wenlee Martinez, Tintin Chien, Naomi Tsai, Lester Arellano, Farah Evans, Ximena Salazar and Ivan, Frances and Bruce.
