

COMPUTER SCIENCE 2351

Data Structure

Spring 2009

Course Information:

Instructor: TingTing Hwang, Room 442, Ext-31310,
tingting@cs.nthu.edu.tw (e-mail),

TA: ahsieh@cs.nthu.edu.tw, M5 (office hour), rm 227, ext: 33573
g9762566@oz.nthu.edu.tw, W5 (office hour), rm 228, ext: 33572
g9762538@oz.nthu.edu.tw, R5 (office hour), rm 228, ext:33572

Grading: Quiz: 10%,
Midterm1 : 20%, Mar. 31 (Tue) : 7:00-9:00 PM (Chap 1-3)
Midterm2 : 25%, May 7 (Thur) : 7:00-9:00 PM (Chap 4-5)
Final : 25%, June 15 (Mon) : 10:10-12:00 AM (Chap 6-)
Programming assignments : 20%.
One final project will be assigned near the end of semester. Failure to submit the final project will result in failure of this course no matter what grades you accumulate by quizzes, midterms, and final.

Text Book: *Fundamentals of Data Structure in C*,
E. Horowitz, S. Sahni and S. Anderson-Freed.

General Information:

We will cover Chapters 1-7 and selected topics of Chapter 8 of the text book. This course will proceed along the following subjects :

1. Introduction to Algorithms,
2. Array and Structures,
3. Stacks and Queues,
4. Lists,
5. Trees,
6. Sets,
7. Graphs,
8. Hashing,
9. Sorting.

You are required to be **honest**. No cheating in either quiz or examination. A caught cheating act will be given zero grade.

You are required to be **responsible**. No late submissions of programming assignments.
